

Name: Jesús Rolando Ramirez Rueda
Cell Phone: +52 9221578408
Address: Xalapa, Veracruz. Mexico
E-mail: jesusrolandorr@gmail.com

EDUCATION:

Universidad Veracruzana Sep 2020 – Jul 2024

Ph.D in Computer Science (PNPC)
Cedula:15331597

Universidad Veracruzana Aug 2017 – Jul 2019

Master in User-centered Interactive Systems (PNPC)
Cedula: 11991445

Instituto Tecnológico de Minatitlán Aug 2010 – Dec 2014

Computer Systems engineer
Specialization in Software Engineering, Computer Networks.
Cedula: 9529389

EXPERIENCE:

Tata Consultancy Services TCS Sep 2024 – Actually
IT Analyst

- Provided L2 support for business-critical applications in production environments under SLA-driven operations.
- Monitored production server health and validated service availability.
- Investigated and resolved incidents through log analysis and active process validation.
- Collaborated with development teams to perform Root Cause Analysis (RCA) on recurring failures.
- Performed SQL-based validations on structured databases to verify transactions and active sessions.
- Managed support tickets through ServiceNow ensuring SLA compliance.
- Supported change management and deployment processes in production environments.
- Generated daily and weekly operational reports regarding system availability and performance.
- Coordinated service restoration after operational disruptions.

Instituto Universitario Veracruzano Jan 2021 – Actually
Professor of the Faculty of Computer Science

- Advanced Software Engineering
- Database Systems
- Applied Technologies in Healthcare
- Information Systems I & II
- Digital Logic
- Virtual Reality & Game Development
- E-commerce
- Information Technologies for Public Administration

Universidad del Golfo de México Jan 2018 – Sep 2022
Professor of the Faculty of Computer Science

- Simulation.
- Operating Systems II.
- Software Engineering II.
- Electricity and Magnetism.
- Introduction to Computer Systems Engineering.
- File Management.
- Numerical Methods.
- Information System.

SSP Centro estatal de Control, Comando, Comunicaciones y Cómputo C4 Oct 2019 – Oct 2020
Systems Development Analyst

- Technical support to state sub-centers.
- Analysis of multiple scenarios in software development.
- Create a plan and execute different solutions of the scenarios that can occur during the deployment of a system.
- Implementation, configuration, and administration of the Web platform of the governmental institution.
(<http://sspc4.sspver.gob.mx/>)

Bureau Veritas Mexicana S.A de C.V.
Technical Support Analyst

May 2017 – Aug 2017

- Supervision of useful information from the company in order to develop strategies to face the challenges of different projects.
- Integration of data into a database.
- Use of graphs and support tables for information optimization.
- Documentation process optimization.

VIPSA Soluciones Integrales S.A de C.V.
Systems Engineer

Nov 2015 – Feb 2017

- Analysis and preparation of purchase orders for the acquisition of resources, and computer equipment.
- Programming of preventive maintenance and attention to corrective maintenance.
- Technical support to users.
- Maintenance of the network infrastructure.
- Registration of inventory of computer equipment, telephony and networks of the company.
- Implementation, configuration, and administration of the Web platform. (www.vipsamx.com)

SUPPLEMENTARY DATA:

Additional language:

- English: 75% Written, 75% spoken.
- French: 35% Written, 35% spoken.

Areas of technical expertise:

- Context-Aware Systems.
- User-centered Design.
- Generative AI.
- UX/UI.
- Natural Language Processing.

Technological skills:

- Office software: (Word, Excel, PowerPoint, Outlook).
- Web knowledge: Python, Java, HTML, PHP, CSS, Bootstrap, Materialize, JSF.
- Data Base: SQL, MySQL.
- Knowledge Operating Systems: Windows, Linux, Mac OS.
- Statistical software: Rapidminer, R, IBM SPSS.
- Administrative Software: SAE, COI, NOI.
- Design software: Photoshop, Illustrator, Sketchup.
- Workflow Management Tools: ServiceNow

Courses:

- What Is Generative AI? (2026)
- Strategic Partnerships (2026)
- Aprovechar la IA generativa para la gestión de proyectos (2026)
- Generative AI vs. Traditional AI (2025)
- UX Foundations: Usability Testing (2025)
- Discover the Possibilities of Generative AI (2024)
- Introduction to Prompt Engineering for Generative AI (2023)
- Diseño de interfaz (UI) avanzado (2022)
- Experiencia de usuario (UX) esencial (2022)
- SQL: Data Reporting and Analysis (2022)
- SQL Essential Training (2022) (2022)
- Advanced Java Programming (2022)
- Learning Bash Scripting (2022)
- Learning Linux Command Line (2022)
- The New Role of the Educator: Best Practices in Online Education (2020).
- Design and installation of photovoltaic systems (2019).
- English Plus Level A1, A2, B1. (2017).
- Industrial Safety Supervisor Level (2015).

Certifications:

- TOEFL ITP Score Report: 587 pts (2019).
- "Data Network Technician" (2015).
- "RIGPASS Drilling safety" (2015).
- "Well Cap of Oil Wells" (2015).

Diploma course:

- Digital teaching skills (2018).
- Development of digital teaching skills Upaep (2016).

Scientific Publications:

- Transforming Software Development: A Study on the Integration of Multi-Agent Systems and Large Language Models for Automatic Code Generation. (International Conference in Software Engineering Research and Innovation – México). Doi: 10.1109/CONISOFT63288.2024.00013.
- A Systematic Literature Review of 10 years of Research on Program Synthesis and Natural Language Processing. (Programming and Computer Software Journal). Doi: doi.org/10.1134/S0361768824700737.
- Program Synthesis and Natural Language Processing: A Systematic Literature Review. (International Conference in Software Engineering Research and Innovation – México). Doi: 10.1109/CONISOFT58849.2023.00042
- Expressive Context Modelling with Description Logics. (1st Iberoamerican Knowledge Graphs and Semantic Web Conference – Villa Clara, Cuba). ISSN 1865-0929 ISSN 1865-0937 (electronic) Communications in Computer and Information Science ISBN 978-3-030-21394-7.
